**DATE:** Thursday, March 7, 2024  
**TIME:** 8:00-9:00am  
**LOCATION:** Nebraska Building Chapter AGC, 301 South 13<sup>th</sup> Street Suite 200, Lincoln

**Program:** Business Vision & Leadership into the Next Generation - Many of the most successful business leaders work longer hours and get less return on their investments of time and money. Worse yet, as they look to retire, they face the challenge of who will lead into the future.

**Maybe you grapple with some of these challenges:**

- **Lack of control** over time, markets, or your company.
- **People** who don't listen, understand, or follow through.
- **Profit** that's inconsistent and/or there's not enough.
- **Growth** is happening, but you can't break through to the next level.
- **Quick fixes** that come and go, bringing little change with continued frustrations.

At the conclusion of this workshop, you will walk away with a set of simple, practical tools that you and your leadership team will use immediately to focus on priorities, get clear on issues, and gain traction together as a healthier leadership team.

**Presenter:** **Katie Koester** works as an Implementer of the Entrepreneurial Operation System, a complete set of simple concepts and practical tools to increase discipline and accountability for owners and leaders to get what they want from their business. Katie spent 13 years in the commercial construction industry as the Vice President of Operations for a local electrical contractor. While in that position she helped to implement EOS in the business and grow it by \$30 million in 4 years.
